Workshop 202: Effectiveness and Impact of Enforcement Remedies

Friday, February 7, 2020

10:30 AM - 12:00 PM

The Child Support Program relies on a variety of enforcement remedies to promote, reliable child support payments in a timely manner. This workshop will examine the potential consequences of specific enforcement remedies in the context of families' upward economic and social mobility. How do child support enforcement actions assist in upward mobility for the children, the person who receives support, and the person who pays support? Are there some enforcement actions that hinder mobility? Speakers will share their insights around designing enforcement programs that encourage improvement.
